

We are happy to speak positively and recommend MAB Home Services and Michael Budman.

We contracted with Michael to renovate two very tired bathrooms and remodel our 20+ year old kitchen. The initial work Michael did on the bathrooms, assured us that the kitchen project would go smoothly. We could see how proud Michael was of his work and how this pride transferred into two beautiful new bathrooms.

Michael is an outstanding craftsman whose attention to detail is unsurpassed.

The kitchen plan we presented to him required that he create the concept and significant tweaking to make it all work. No construction project goes exactly as planned and Michael did a great job troubleshooting, improvising and anticipating things that could not have been foreseen during the initial planning phase. Michael's skillful tile work and creative layout design, as well as his installation of the natural slate tiles demanded extra work, energy and dedication to create the perfect product. And the finished kitchen is splendid! Throughout the project and well after, Michael has been accessible and flexible to make, not only small adjustments and changes, but some big ones, as well.

Overall, we have been more than pleased with Michael's expert craftsmanship, professionalism and our fabulous new kitchen!
